ABOUT FOUNDER

BRIAN K. CURTIS
FOUNDER & CHIEF EXECUTIVE OFFICER

Mr. Brian K. Curtis is the Founder and Chief Executive Officer of Omni Global Energy, an international petroleum commodities and energy infrastructure company engaged in refined fuel trade, refinery investment, and the development of vertically integrated energy networks across emerging markets.

With more than 15 years of experience in global petroleum trading and project development, Mr. Curtis has built a career defined by strategic sourcing, government-level partnerships, and the creation of sustainable, long-term energy solutions across Africa, Asia, Europe, and the Americas.

His leadership combines deep market insight with a relationship-driven sourcing philosophy, allowing Omni Global Energy to bridge the gap between global refiners and end-user nations.

Through this approach, Mr. Curtis has positioned the company as a trusted and agile energy partner capable of meeting large-scale fuel supply demands while pursuing infrastructure projects that enhance energy independence and regional stability.

ABOUT FOUNDER

Over the past decade and a half, Mr. Curtis has successfully executed and supported energy initiatives valued at **over \$55 billion**, encompassing fuel supply programs, refinery expansions, and new infrastructure development.

His achievements includes:

- **Fuel Supply and National Energy Support** - Successfully sourced and delivered refined petroleum products on behalf of national entities such as the Government of Liberia, ensuring reliable access to critical energy resources.
- **Strategic Project Development and Financing** - Led project management and funding efforts for multi-billion-dollar refinery and energy infrastructure projects in **Nigeria, Tanzania, Kenya, and Peru**, engaging both private investors and sovereign-level stakeholders.
- **Refinery Partnerships and Integration** - Spearheaded multiple refinery initiatives in **Nigeria, Liberia, and Gabon**, with ongoing plans for capacity expansion projects exceeding **60,000** barrels per day and modular refinery development targeting **50,000–100,000** barrels per day.
- **Global Market Expansion** - Established Omni Global Energy's operational reach across **Africa, Europe, Asia, and the Americas**, with active engagement in key trade corridors connecting European refiners to African and South American markets.

Mr. Curtis's ability to leverage longstanding industry relationships (spanning refiners, traders, financial institutions, and government entities), has been central to Omni's consistent growth and access to reliable fuel sources worldwide.

ABOUT FOUNDER

Under Mr. Curtis's leadership, **Omni Global Energy** is pursuing a **vertically integrated African energy network**, strategically combining upstream sourcing, refining capacity, and downstream distribution to create a sustainable energy ecosystem.

This integration enables Omni to provide consistent, competitively priced fuel while reducing reliance on external supply chains.

The company's strategic vision extends beyond trading; it seeks to catalyze industrial growth, regional employment, and energy resilience through localized refinery development and infrastructure modernization.

In doing so, Omni positions itself as a **bridge between global refiners and emerging market end-users**, supporting both economic development and long-term energy security.

ABOUT FOUNDER

Mr. Curtis is recognized for his **relationship-driven leadership style**, emphasizing transparency, integrity, and mutual value creation across all partnerships.

His cross-sector experience spans from project finance, commodity trading, and infrastructure development, which enables Omni to operate with the agility of a trading house and the long-term vision of an integrated energy company.

An alumnus of the **University of California, Berkeley**, where he earned a degree in **Architecture**, Mr. Curtis combines analytical precision with creative, solutions-oriented project execution, qualities that have become hallmarks of his leadership within the global energy sector.

Through the direction of Brian K. Curtis, **Omni Global Energy** continues to expand its influence as a next-generation energy enterprise focused on reliable fuel supply, strategic refinery investments, and cross-continental energy integration.

Guided by a clear vision for sustainable development and market interconnectivity, Mr. Curtis remains committed to strengthening Africa's role within the global petroleum landscape while delivering lasting value to partners, investors, and the communities Omni serves.

MISSION STATEMENT

Our Mission:

To be a trusted global partner in refined fuel trading by delivering secure supply, unmatched market expertise, and long-term value. We do so by leveraging the strength of our global relationships and the professionalism of our operations, while supporting a responsible transition in the energy economy.

ABOUT OMNI GLOBAL ENERGY

Powering Global Trade. Delivering Reliable Energy.

Omni Global Energy is an independent global energy trading and supply company specializing in the sourcing, logistics, and distribution of refined petroleum products. With a foundation built on market expertise and long-standing industry partnerships, we deliver reliable energy solutions to governments, state-owned enterprises, industrial consumers, and commercial clients worldwide.

OUR BUSINESS

At Omni Global Energy, we focus on the physical trade of refined petroleum products, ensuring secure and efficient delivery across global markets. Our portfolio includes:

- **Gasoline & Naphtha** – supplying growth markets with high-quality motor fuels.
 - **Gasoil & Diesel** – ensuring reliable delivery of road transport and industrial fuels.
 - **Jet Fuel / Aviation Turbine Kerosene (ATK)** – trusted supplier to airlines, airports, and state aviation authorities.
 - **Fuel Oil & Marine Bunkers** – serving the shipping and maritime industry with compliant solutions under IMO 2020 standards.
 - **LPG (Liquefied Petroleum Gas)** – supporting both industrial applications and emerging consumer markets.
- By combining market intelligence, risk management, and robust supply chain capabilities, Omni Global Energy ensures that counterparties can depend on timely, competitively priced energy solutions.

VALUE PROPOSITION

Omni Global Energy offers institutional partners a combination of:

- 1. Reliable Supply** – Secured through long-standing sourcing relationships with major refiners and producers
- 2. Risk Management Discipline** – Advanced hedging, structured finance, and counterparty credit solutions
- 3. Logistical Reach** – Access to shipping, blending, and storage at strategic global hubs
- 4. Financial Stability** – Transparent governance, banking relationships, and operational integrity

STRATEGIC STRENGTHS

- **Direct Access to Producers:** Long-term supply arrangements with leading refiners and national oil companies
- **Established Market Relationships:** Deep industry ties enabling trade execution in complex and volatile environments
- **Liquidity & Creditworthiness:** Strong standing with international banks, insurers, and trade finance providers
- **Operational Flexibility:** Ability to arbitrage across markets and optimize flows for counterparties

INVESTMENT PROPOSITION

Omni Global Energy presents a stable and growth-oriented investment case by combining:

- **Resilient Core Business** – Steady demand for refined fuels across developed and emerging markets
- **Diversified Portfolio** – Multi-product, multi-region strategy mitigating single-market exposure
- **Institutional Standards** – Governance, compliance, and financial integrity aligned with global best practices
- **Future-Focused Growth** – Expansion into new markets and progressive transition strategies

COMMITMENT TO TRANSITION

Omni Global Energy is aligned with global energy transition trends by:

- Incorporating **IMO 2020-compliant fuels** for shipping and maritime clients
- Exploring **cleaner fuels and logistics efficiencies**
- Maintaining **ESG-focused trade practices** to meet regulatory and stakeholder expectations

GLOBAL REACH

Leveraging strategic relationships with producers, refiners, and terminal operators across **Europe, Asia, Africa, the Middle East, and the Americas**, Omni Global Energy operates with the agility of an independent trading house while maintaining the discipline and reliability of an institutional partner.

We utilize key global trading hubs such as **Rotterdam, Fujairah, Singapore, and Houston**, enabling us to connect supply with demand efficiently and competitively. Our expertise in chartering, storage, and blending ensures value optimization across every stage of the supply chain.

STRATEGIC ADVANTAGE

Omni Global Energy's competitive edge lies in three pillars:

- 1. Reliable Fuel Sources** – We source directly from leading refiners and national oil companies, ensuring consistent quality and supply security.
- 2. Industry Relationships** – Decades of trust built with major energy players, financial institutions, and logistics providers allow us to execute trades seamlessly across volatile markets.
- 3. Market Expertise** – Our trading teams integrate real-time market intelligence, advanced hedging strategies, and risk management disciplines to deliver value to clients and counterparties.

LONG-TERM PARTNERSHIP

Our success is rooted in relationships. Through enduring collaborations with **refiners, shipping lines, storage operators, and financial institutions**, Omni Global Energy provides clients with access to liquidity, reliability, and optionality across markets.

By aligning with our partners' long-term objectives, we foster stability and mutual growth in a complex energy landscape.

COMMITMENT TO THE FUTURE

As the global energy sector evolves, Omni Global Energy remains committed to innovation, compliance, and sustainability.

While refined fuels remain core to our business, we actively explore **cleaner energy solutions** and efficiency-driven logistics that align with the industry's transition to lower-carbon operations.

COMPANY SNAPSHOT

- **Core Business:** Physical trading, financing, and distribution of refined petroleum products
- **Trading Portfolio:** Gasoline, naphtha, diesel/gasoil, jet fuel, fuel oil, LPG
- **Global Presence:** Operations anchored in Rotterdam, Fujairah, Singapore, Houston, with active flows across Europe, Africa, the Middle East, Asia-Pacific, and the Americas
- **Counterparties:** Partnerships with refiners, national oil companies, industrial consumers, utilities, shipping companies, and financial institutions

CONCLUSION

OMNI GLOBAL ENEGERY

Delivering Energy | Building Trust | Managing Risk |

Creating Long-Term Value | Connecting the world
